Re: American Electric Power Generation Resources Inc.
General James M. Gavin Plant
Coal Combustion Residual (CCR) Rule
Notice of Intent to Close the Fly Ash Pond (FAP)

Dear Director Butler:

Pursuant to the CCR rule contained in 40 CFR 257.102(g), this letter serves as the notification of intent (NOI) to the OEPA Director to close the Gavin FAP in accordance with the OEPA-approved closure plan. The closure plan details activities necessary to complete the closure by leaving the CCRs in place. Both the closure plan and this notification have been placed in the facilities' operating record and on the publically accessible internet site. The internet site is at [AEP.com/AboutUs/RequireInternetPostings/CCR Rule Compliance Data and Information/Gavin/Fly Ash Pond](http://AEP.com/AboutUs/RequireInternetPostings/CCRRuleComplianceDataandInformation/Gavin/FlyAshPond).

It is important to note that the Ohio EPA-approved Closure Plan is undergoing amendments to include requirements mandated by the Federal CCR Rule effective on October 19, 2015 that are different from the State requirements. The approved final cover system, however, complies with both the Federal CCR rule and the State requirements.

Included with this NOI is a certification by a qualified professional engineer that the final cover system as detailed in the closure plan is designed to minimize infiltration and erosion as required by 40 CFR 257.102(d)(3) and meets the requirements of the final cover system as mandated in 40 CFR 102(d)(3)(i).

If there are any questions, please contact me at 614-716-1254 or by email at dmsheets@aep.com.

Sincerely,

Dana M. Sheets P.E.
Environmental Services

PE Certification:

The following Professional Engineer's Certification is certifying that the design of the final cover system for closure of the Gavin Plant fly ash pond meets the requirements of 40 CFR 257.102(d)(3)(i).
