

**Gavin Power LLC – General James M. Gavin Power Plant  
Notice of Intent to Close Bottom Ash Pond  
Coal Combustion Residual Rule Compliance  
Cheshire, Ohio**

In compliance with Title 40 of the Code of Federal Regulations (CFR) Section 257.102(g), Gavin Power LLC (Gavin) has prepared this notification of intent to close the Bottom Ash Pond (BAP) at the General James M. Gavin Power Plant located in Cheshire, Ohio. The bottom ash pond received the last known waste placement on April 7, 2023, and in accordance with 40 CFR 257.102(e)(1), closure must commence no later than 30 days after that date. Gavin is closing the bottom ash pond in accordance with the Gavin Bottom Ash Pond Closure Plan (Closure Plan) developed under 40 CFR 257.102(b) and (c).

The bottom ash pond will not be subject to a post-closure plan per 40 CFR 257.104(a)(2) as the closure design was prepared in accordance with 40 CFR 257.102(c) and precludes future impoundment of water, sediment and slurry, minimizes the need for further maintenance of the CCR unit and is consistent with recognized and generally accepted good engineering practices.

I certify, as a Professional Engineer in the State of Ohio, that the closure by removal for the bottom ash pond at the General James M. Gavin Power Plant is designed in accordance with 40 CFR 257.102(b) and (c) and the Closure Plan.
